

Lifetime Photograph Authorization

Our program is requesting that our staff and administrators be allowed to photograph children enrolled in the program. There are times during the school year when special activities and events have been planned which enhances the children's experience and participation in class projects.

By signing this you are releasing pictures and allowing Springview Academy to post such pictures on our social media pages and advertising. In case of accident or incident pictures will be used as documentation along with the accident or incident report.

The following are some examples of what we use the photographs for:

- Teaching purposes
- Our school newsletter
- To make school albums
- For memories of special activities
- Display in classroom and bulletin boards
- Encourage self-esteem
- Accreditation criteria
- Accident report
- Facebook
- Instagram
- Neighborhood flyers

Please be aware that any photographs taken of your child is for the sole purpose and use of our program.

I have read and understand the above statements, and I authorize my child/children to be photographed for the planned event.
